This months meeting

September Program is the 2X4 Challenge
 Seven people signed up to bring their projects for the 2X4 Challenge judging on September 25th.
 We have three judges. They will award a gold, a silver and a bronze trophy for first second and third. Everyone who participates will get a trophy.
 After the judging each participant will tell about their entry.
 Looking ahead to October
 Saturday October 20 our Big Tool Store show and demonstration.
 A number of you signed up to bring items to show that day. We need more.
 Three people signed up to do demonstrations during the day. These are short, maybe 10 minute, demonstrations. And perhaps give the demonstration two or three times. At the September meeting those giving demonstrations will sign up for times. We need more

demonstrators.
 We will need help early on Saturday morning to set up the tent, put up our sign and set up tables. We will also need two or three members to watch and give out information about the Guild during the day.
 Tuesday October 23 Jerry Carpenter will present a program on how to make rough hewn table legs.
 For information or questions contact Bill Tumbleson or John Rhoads

Inspiration

Or lack thereof

Several members are bringing projects made from 2 x 4's or the equivalent board feet of lumber for our 2 x 4 contest. The results may range from the simple to the complex from the functional to fantasy. The imaginations of our members will be the only limiting factor.

I have made a few projects this year but my imagination drew a blank for this contest. Not the first time I have found only blanks when searching through the collection of brain cells

that make up my mind. Fortunately the Guild is made up of many members and not reliant on any one person.

The Guild provides many opportunities to share your skills and knowledge and I hope to see many of you demonstrating your work and techniques when the light bulb goes on and you say to yourself, "I can do that".

Minutes

Sunflower WoodWorkers Minutes August 28th, 2012

Visitors: Jim Swisher who likes to make furniture. From Boeing

Christopher Lucas works at Woodard Merchantile in Maize

JOHN RHOADES REMINDED US OF THE 2 X 4 PROJECT---due thi0s September

Jerry Carpenter noted the BIG TOOL STORE sale and Sunflowers Guild will be there OCTOBER 20, Saturday from 8:30AM until 2PM.

David Fowler noted the Hand Saw project and plans for another 'session'--great success and results

Burt's Barn is now open again!!--usually the Saturday after the guild meeting.

Les Hastings noted the KC Guild has an all day --9AM--5PM presentation of Museum furniture, the makers, periods---on Oct 20th

Members question about a membership list with name, phone numbers, email--discussed privacy issues and how we might get that information to those that need or want.

SHOW AND TELL

Terry Powell brought and discussed making 'mountain dulcimers', picture frames, etc--he played one also!!

Terry's bend tool

Galen Cassidy showed sanding blocks and what he picked up at garage sale

John Rhoades brought and noted THE WOOKBOOK from TASCHEN press--large, but great reference!

David Fowler noted the hand cut dovetail saw project and a great small saw made for his son!!

Kathryn Vernon has for sale some over 25 years old KOA wood, Brazilian rosewood

Bill Tumbleson brought another useful jig--this one is for joints

Sorry, I do not have the name of this scroll saw project's creator

Program
John Saranko--scroll saw local artist and guild member--gave a great short presentation with

discussions of the five types of blades, where to purchase and quantity, wood preparation, speed, common beginner mistakes, use of spray adhesive and many tricks he has learned over the years.

We all were able to try our fingers and hands with 5 saw stations set up and patterns to cut out. Very useful and good start!!!

A jointer, starting price is \$700.00
This is manufactured by Crescent Tool Company. It has adjustable infeed and outfeed tables, indexing fence that adjusts to 45 degree angle. It has an almost new Baldor 3/4 horse single phase motor set to run on 120 volts and has a 4 blade head with what appears to be ball bearings not tapered bearings.
